KEEPING YOU IN THE KNOW...

GOTV Resources

Election Season is here, and 2024 is right around the corner. It's time to channel our passion into action. It's time to start your GOTV (Get Out The Vote) planning, including registering voters as Republicans - NOW.

Recently the ORP recognized it would be beneficial for the counties to have additional guidance to assist them with GOTV efforts, so they created a new GOTV Committee. The GOTV committee has created resources and content to help guide Republican county parties with effective and efficient Get Out The Vote strategies and guidelines.

MARK YOUR CALENDARS! We will hold a GOTV Zoom training webinar for PCPs on Wednesday, Dec. 6, from 6 - 7:30pm. The purpose of this webinar is to introduce the new materials put together by the GOTV committee and to answer your questions. This training will be particularly helpful for newer PCPs. For those who miss the training, a link to the recorded session will be available to PCPs shortly thereafter.

Remember, every vote counts, and your county's participation can tip the scales. Let's continue to work together, inspire our volunteers and PCPs, and motivate our communities. We have the opportunity to make a significant impact, not just in our counties, but in the state and national landscape.

The road to success is paved with the efforts of dedicated individuals like you. Let's leave no stone unturned, and let's Get Out The Vote like never before! Thank you for your hard work and unwavering commitment as we work together to WIN in 2024.

Connie Whelchel,
ORP GOTV Chair/Vice Chair of Deschutes County

ELECTION DAY was NOVEMBER 7, 2023!

Sadly, but as we've come to expect, turnout was low.

However, Measure 24-491, the Salem payroll tax, was resoundingly defeated, with over 81.5% of votes cast against it. This tax proposed by the Salem City Council would have taxed everyone employed in Salem even if they lived elsewhere.

YOUR VOTE MATTERS!

Let's all commit to GOTV in 2024.

YOUR VOTE MATTERS!

Recently the Oregon Board of Education suspended high school graduation requirements in Oregon public schools for another four years. In doing so, OBE ignored letters and comments from almost 1,500 Oregonians who wrote or testified in opposition to this decision.

What you might not realize is that almost every Board member was appointed by Governor Tina Kotek.

Governor Kotek and her Board of Education appear not to value the opinions of concerned parents and taxpayers. These unelected bureaucrats are making consequential decisions that directly affect children in Oregon.

Elections have consequences, not only directly, but also through trickle-down, decision-making bureaucratic appointments.

YOUR VOTE REALLY DOES MATTER!

Statement from Republican Leader Jeff Helfrich on the November Revenue Forecast:

"Today's revenue forecast shows a stable economic outlook in the short term. While this is good news for today, I am worried about tomorrow. My concern is for Oregon's future economic outlook. Population in Oregon is stagnating as people flee - and choose not to move near - the drugs and crime Oregon is rapidly becoming known for. This will have long-term consequences on revenues, which will further strain resources needed to address critical needs. Pretending things are fine is not a solution, and we need bipartisan buy-in to reverse this troubling trend. During the upcoming short session, the House Republican Caucus will support legislation to make our state a safer, more affordable place to live and do business."

Around Oregon

Grassroots activists, party leaders and elected officials all agree that the Secretary of State has overstepped her boundaries and violated the 1st amendment rights of Oregonians. The ORP, several county parties, and GOP House members have released statements or letters demanding that the Secretary of State rescind her deal with a UK-based AI company contracted to "combat misinformation" about Oregon elections.

The problem with censorship is that the censor, in this case the SOS, always decides what is to be considered "misinformation" and what isn't.

The government does not have, and has never had, the right to censor free speech. The SOS is trying to silence those who have a perspective different from that of those in power in the government.

Rather than increasing election security, censorship decreases Oregonians' trust in government and further deepens political division.

THE
2023
ORP
PLATFORM

The biennial ORP Platform Convention was held October 19-October 21, 2023. County delegates, elected GOP officials, and ORP officers from all over the state gathered in Pendleton to hammer out the details of ORP's 2023 Platform. In ORP's continuing commitment to open, transparent elections, delegates voted to move the Election Integrity plank to the top of the platform. In response to increasing threats to our nation's energy independence and to intrusive government interference in consumer energy choices, delegates also voted to create a new Energy plank.

PCP Organization Chair Jessica Davidson says, "We appreciate all the participation from counties across the state. Thank you to the Leadership, Chairs & Secretaries of the Platform sessions, and to PCP's for all your hard work! Your dedication to helping our beautiful state is greatly appreciated."
